MEDIA RELEASE

Update on the Fast Ferry Ramp at the Port of Scarborough

The Buccoo Reef arrived at the Port of Scarborough at 10.06 am today, Saturday 13th April 2024. Shortly into the operations, at around 10:30 am the ramp locking beam became loose due to the rough seas and increased wave action in the harbour due to the Cruise vessel berthed at the finger pier.

The operation was stopped and the ramp was lifted to assess the situation. It was observed that 3 out of the 5 locking beam brackets were detached from the locking beam. A pedestrian ramp was placed on the side of vessel to allow the remaining walk-off passengers to disembark.

A contractor was engaged to undertake a temporary fix to allow the remaining vehicles to disembark. The remaining vehicles commenced disembarking at 1:05pm and was completed at 1:20pm.

Repair works are continuing, to prevent any further disruption to the service.
